Are DSLC and DSLC-2 Loadshare Protocols compatible?

Clemens - 2024-09-27 - easYgen-3000XT

No, old DSLC hat LON load share Lines and DSLC-2 is using redundant E-Net load share network.

As well DSLC-2 Ethernet load share Protocol is not compatible with easYgen-3000XT Ethernet load share network. (the LSG load share device doesn’t work either)

There is no LON / Ethernet Gateway available from Woodward.

The DSLC-2XT has the same incompatibility towards easYgen-3000XT.

DSLC-2 and DSLC-2XT are compatible of course!
