How to license the InterConnect Mapper tool for the easYgen-3000XT?

Simon - 2024-10-10 - Software

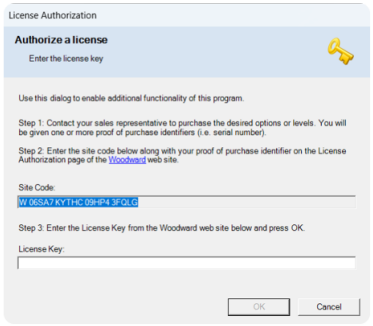

It is possible to set-up and edit projects but InterConnect Mapper tool requires a license to create a resource file that is loaded into the easYgen-3000XT.

10-031-249
This is item number of installer file and supports set-up and edit projects.

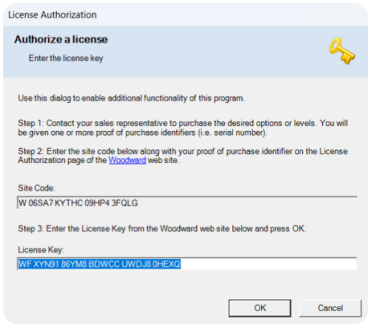

10-031-250
This is item number for activating license.

Activate Licensing from Help menu

Put the “Site Code” in your purchase order along with licensing P/N 10-031-250

Receive “License Key” and insert it in “License Authorization” window. After a restart, the tool runs without restriction. Note: Help/Licensing disappears from a licensed version
