## How to Retrofit GE Zenith ZTG Series and CAT CTG ATS with DTSC-200A to Replace MX150/250 Controls

Clemens - 2025-04-25 - DTSC-200

The MX150/250 ATS control systems have been discontinued. These systems were previously installed in automatic transfer switches, including:

- GE Zenith ZTG Series
- CAT CTG ATS Line

For reference, a demonstration of the obsolete ATS control solution and breaker handling can be found here: YouTube Video.

Below is a recommended wiring configuration for upgrading to the DTSC-200A.

and some pictures from upgrade
