# Can I loadshare different easYgen-2000 /3000/ XT controls ?

Clemens - 2024-10-10 - easYgen-2000

Yes all easYgen-2000, easYgen-3000, easYgen-3000XT have same CANopen loadshare protocol

From time to time people are asking, if it is possible to combine different easYgens within the CAN bus communication network supporting sequencing (LDSS), kW and kVAR sharing.

- easYgen-3000XT is a fully drop-in replacement from the previous easYgen-3000 line for up to 32 gensets
- easYgens-2000 can be connected to easYgens-3000 controls as well. Keep in mind that in this combination total number of gensets are limited to 16 easYgens in total
