This announcement is used to inform Woodward Customers, Channel Partners and Sales & Marketing of the product rationalization and product support plan for EGCP-2 product line. The Woodward EGCP-2 family controllers are important product lines to Woodward. However, due to acute obsolescence of important components Woodward is forced to cease production of these devices.

Woodward has long legacy of supplying this product line for over two decades and will continue to offer support for the installed base as spare/repair* where a drop-in replacement is the only possible option or as state-of-the-art easYgen-3000XT based conversion kit. Please access the below literature detailing the conversion kit from Woodward website. Further support schedule is listed on the next page.
