What is difference between SPM-D and SPM-D2

Clemens - 2022-07-25 - SPM-D2

Download here SPM-D2 Whats's New document

- SPM-D2 SERIES WHATS NEW

  Technical Manual

  37624

SPM-D2 is a drop-in 1:1 replacement: some housing, same wiring I/O, same front plate, same configuration masks.

Additional: SPM-D2 can be configured via USB with ToolKit Software

You can identify an old SPM-D by looking on housing side, there was a RJ45 port. New SPM-D2 has a USB Port.

SPM-D replacement partnumbers can be get here:
